

PSMA Semiconductor Committee Meeting on May 4, 2017

Attendees: Ed Herbert, Joe H, Ranbir Singh and Jaume Roig

1. **Proposals for PSMA Sponsored Project:** Could not discuss anything because Aug and Tim were not on the call. Clarification was sought on what kind of isolation technologies are sought - chip, circuit, or something else.
2. **Application Notes Repository:** Not enough quorum to pick a leader
3. **Webinars** Getting more involvement from members is sought, in order to re-invigorate the Semiconductor committee participation. On-Semiconductor has an interesting point of discussion on Soft-switching energy loss in Power Transistors. It was proposed that Jaume Roig from On-Semiconductor will give a webinar on this topic. This could be part of the next PSMA Semiconductor Committee meeting.
4. **SiC Roadmap:** While there is a good GaN roadmap work going on from PSMA, SiC roadmap has been handled by other organizations (IEEE, PowerAmerica). A briefing on these roadmaps is sought for PSMA Semiconductor Committee. Maybe an existing member involved in IEEE or PowerAmerica Roadmap can give a Webinar - volunteers sought.
5. **Mailing List Cleanup:** Lisa ([lisa@psma.com](mailto:lisa@psma.com)) was volunteered to coordinate cleaning up the email list to whom this email goes to. We do not want to send unsolicited emails, so please send email to Lisa if you do not want to be on the list. If you know anyone who is seeking to be on the list, but is not on it, please ask them to send email to Lisa requesting the same. Everyone should increase awareness of PSMA Semiconductor Committee within their organizations, so that participation can be increased
6. **Next Meeting:** It would be good to meet at PCIM Nuremberg, Germany (May 16-19). Hence, if possible, we would like to have a meeting on **May 11, 2017 (Thursday) at 10 AM CT**. Please email [lisa@psma.com](mailto:lisa@psma.com); [rsodhi27@gmail.com](mailto:rsodhi27@gmail.com) and [ranbir@ieee.org](mailto:ranbir@ieee.org) if this works for you **TODAY**. Else, we will plan on having the next Semiconductor Committee on **Thursday, June 8 (Thursday) at 10 AM CT**.

Sincerely,  
Ranbir Singh  
PSMA Semiconductor Committee
