

## **PSMA Capacitor Committee Minutes & Action List**

### **Attendees April 13, 2022**

**Fred Weber** – Future Technology Worldwide

**Stephan Menzel** - CapXon

**Frank Puhane** – Wurth

**Andrew Mikulski** – KEMET

Ada Cheng – AdaClock

Beth Massey – TEA - The Energy Authority

Brian Sparks - FEDCO

Caleb Breazeale – Independent

**Connor Carr** – **WL Gore**

Ed Herbert – PSMA – Magnetics Workshop

Ed Lobo – CDE

**Eduardo Drehmer** – **TDK**

Eric Schneider - Independent

Hengzhao Yang – New Mexico Institute of Mining and Technology / IEEE

**Henry Lee** - **CapXon**

Joe Horzepa – PSMA

**John Horzepa** - **PSMA**

**Jon Rodriguez** - **Wurth**

Kevin O'Connor – Caporus Technologies

Mark Scott – Miami U / IEEE

Matt Wilkowski – Magnetics Committee – Workshop

Mike Cannon - TDK

Mike Dombrow – Faratronic

Mike Dombrow Jr – Faratronic

Mike McGeachie – FAE Cornell Dublier

Nick Visic – AISHI Capacitors

Norm Schutzkus – Richardson Electronics

Peter Victor - Fedco

Phil Whitmire – CDE

Raj Pulugurtha – Florida International University

Rene Kalbitz -Wurth

Rob Haywood – Gore

Scott Franco – CDE

Thomas Gietzol – Collins

Victor Boyadzhyan – AiTech Systems

Liaisons:

**Energy Storage** - Renea from Wurth was suggested

**Magnetics** – Frank Puhane - Wurth

**Semiconductor** - TDK?

**Reliability** - Stephan Menzel - CapXon

**Transportation** – Connor Carr - Gore

**Next Meeting Monday, May 11, 2022 at**  
**10:00 CDT**

## **PSMA Capacitor Committee Minutes & Action List**

### **Committee Webpage**

**The PSMA Webpage have been completely updated!!!**

**We can always use more!!! If you have a training presentation or file please upload it to the following DropBox and let me know:**

<https://www.dropbox.com/request/Nq4EYFznmfUKY7Qdiicu>

### **Vehicular (Automotive) Electronics Workshop**

PSMA is organizing a Workshop that focusses on the electrification Vehicles, including powertrain and autonomous products. Can use the following capacitor Webinar in the workshop.

Fast Charging – Ada Cheng, Gerald Deboy – Infineon

PCB Layout Considerations – Victor Boyadzhyan

Wireless Charging – Pierre Lohrber – Joe Horzepa

DOD electrification trends – Chris Waling

Israeli Capacitor company supplier for Wireless Charging – Norm Schutzkus

Off road Autonomous vehicles – John Deere, CAT

Latest On-Board Charger

Power Distribution (24V to 48V)

Safety –

Reliability Committee – Ada Cheng

Magnetics Requirements - Spang

### **Webinars- ASAP**

***There is a desire and demand to restart the Fundamentals Webinars from the beginning with a fresh approach. Need volunteers, preferably from those that were NOT part of the first series.***

### **PSMA Capacitor Committee Offers Capacitor Fundamentals for Automotive Applications**

Webinars / Low power and control circuit applications

/ Power Stage – High Power

**Picking Capacitors for your application is always a challenge. Deciding on the proper component given all of the various parameters associated with your design and the numerous capacitor technologies results in choosing a part that best balances the pros and cons of each component and how your**

## **PSMA Capacitor Committee Minutes & Action List**

application will react to the use of that specific part. Add in the need to consider an automotive application with the temperature extremes, need for EMI suppression, not to mention shock and vibration and you have a true challenge for only the most experienced engineers.

PSMA Capacitor Committee will be offering two Educational Webinars presented by a design leader in the automotive industry explaining a best practices approach to choosing the capacitor that will be best for your application. The Webinars will be broken into different power levels.

**Best Practices for Choosing Capacitors for Automotive Low-Power and Control Circuit Applications**

**Best Practices for Choosing Capacitors for Automotive High-Power Applications (power stage in Chargers, Converters, & Inverters)**

Specific capacitor locations will be identified on schematics, and their requirements will be reviewed and all of the various critical parameters will be identified. Various suppliers' products will be analyzed using their datasheets as possible candidates. Will we be able to find the best solution? We will have to see...

**Eric Schneider, Independent Engineer with over 35 years of engineering experience.**

## **Pierre to offer a Wurth Fundamentals 101 presentation**

### **Educational Webinar – Sorting out the Data Sheets**

Need an FAE or using engineer with experience reviewing different brands of cap datasheets to compare and contrast and to pull out key data – Frank is working on it. Shooting for April / May timeframe

### **Redo the Capacitor Fundamentals series**

Need volunteer(s) to start at the beginning - CDE Scott to send

## **Roadmap Webinar 2023 Ideas – Reviewing Options**

**FUTURE ROADMAP Webinar Ideas – sharing Underwriting Opportunities with the Committee**

**Norm, RELL – Vishay possible high voltage ceramics discussion, disks... trying to get more details**

## **High Frequency Testing for Caps - Raj**

**NEED IDEAS!!!**

New technologies for Broadband application Capacitor support

## **PSMA Capacitor Committee Minutes & Action List**

Tantalums

### **New in Ultra Caps – Takata, more than ELC – Hybrid package?**

Application Driven – how different technologies behave – Filtering, Inverters (DC Link), Power Supplies, compare and contrast technologies and certain parameters for each technology.

Also include Environmental technology discussion (i.e. Heat, Vibe, EMI).

Würth – Power Supply - DC Link / MLCC DC bias

**EPCOS – Filtering X/Y Caps, Rob Haywood – Gore’s new dielectrics**, Würth - Polymers with higher capabilities

### **Cap optimization for EMC & EMI, BOM, layout, etc. – Raj**

**New: Aug, 4<sup>th</sup>**

Raj and Victor to supply an abstract of his presentation

**Polymer Caps, MLCCs – at least two segments: low voltage / high voltage**

**Make suggestion to Connor & Dhaval for Power Tech Roadmap**

### **Possible Eaton Hybrid Supercap – need contact**

<https://www.eaton.com/us/en-us/products/electronic-components/faq/what-is-a-hybrid-supercapacitor.html>

## **Workshop Mission Statement –**

*The PSMA Capacitor Committee Annual Workshop aligned with APEC has a mission to educate the attendees on capacitor trends, technologies, and innovations. Wherever and whenever applications need energy, Capacitors are at the spotlight, and as energy moves the world it is incumbent for everyone to keep their finger on the pulse of capacitor issues. PSMA’s Capacitor Committee is committed to present the best material available to meet the industry’s needs.*

## **Workshop 2023 – Overview**

### **2023 Theme**

??

**Frank to supply a first draft of a survey to be sent out by the PSMA office and all manufacturers – due ASAP**

Need to create a flier for the sponsorship opportunities – on the registration Page. Need to promote within our organizations.

Need a few more demo stations – How about asking for payment for tables by suppliers.

Need more attendees.

Possibly go Hybrid

## **PSMA Capacitor Committee Minutes & Action List**

Presentations to be reviewed end of January to mid-February

Student Waivers?? – How many

Speakers for round table??

### **Industry Session 2023 – Andrew Mikulski**

**Theme:**

**??**

**Reliability Improvements, Calculations?**

**Capacitor Users Problems and Fixes**

Use IC manufactures

Frank to pass on contacts to Andrew

**GET MORE COMMITTEE PARTICIPANTS**
