

PSMA Capacitor Committee Minutes & Action List

Attendees October 12, 2022

Fred Weber – Future Technology Worldwide

Stephan Menzel - CapXon

Frank Puhane – Wurth

Andrew Mikulski – KEMET

Ada Cheng – AdaClock

Beth Massey – TEA - The Energy Authority

Brian Sparks - FEDCO

Caleb Breazeale – Independent

Connor Carr – WL Gore

Ed Herbert – PSMA – Magnetism Workshop

Ed Lobo – CDE

Eduardo Drehmer – TDK

Eric Schneider - Independent

Hengzhao Yang – New Mexico Institute of Mining and Technology / IEEE

Henry Lee - CapXon

Joe Horzempa – PSMA

John Horzempa - PSMA

Jon Izkue Rodriguez - Wurth

Kevin O'Connor – Caporus Technologies

Mark Scott – Miami U / IEEE

Matt Wilkowski – Magnetism Committee – Workshop

Mike Cannon - TDK

Mike Dombrow – Faratronic

Mike Dombrow Jr – Faratronic

Mike McGeachie – FAE Cornell Dublier

Nick Visic – AISHI Capacitors

Norm Schutzkus – Richardson Electronics

Peter Victor - Fedco

Phil Whitmire – CDE

Raj Pulugurtha – Florida International University

Rene Kalbitz -Wurth

Rob Haywood – Gore

Scott Franco – CDE

Thomas Gietzol – Collins

Victor Boyadzhyan – Midcon Instruments & Avionics

Liaisons:

Energy Storage - René from Wurth was suggested

Magnetism – Frank Puhane - Wurth

Semiconductor - TDK?

Reliability - Stephan Menzel - CapXon

Transportation – Connor Carr - Gore

Next Meeting Wednesday, November 9,
2022 at 10:00 CDT

PSMA Capacitor Committee Minutes & Action List

Updates for October 12, 2022:

- A) 1st Webinar – 29th of November ca. 45min
Topic: Capacitor Basic 201 – Cap Technologies and Parameters
Agenda for next Board Meeting (16th of September)

Andrew (Yageo/KEMET) and Eduardo (TDK) check internally,
If they can contribute material for 1st or 2nd webinar

Webinar will cover basic but important parameters of capacitors
as well as introducing all major cap-technologies Film, Ceramic,
Al E-Caps and Tantalums

2nd Webinar – December / January
Topic: Datasheet & Cap Selection

Presenters and deeper content will be scheduled in October
meeting

Tuesday in November (12.10.2022) => 29.11.2022 First
Webinar

- B) Workshop – Application focused
Special Project Nomination form is prepared and will be shared
with PSMA shortly

Approaching the earlier discussed potential speakers

Workshop is announced by last PSMA Newsletter

Round Table => Networking and Demo

Magnetic Workshop doing up to 4 poster

- Students free wave

Poster sessions for the capacitor workshop?!

Question round after lunch?

PSMA Capacitor Committee Minutes & Action List

C) Industry Session – WBG and focus on end users

Industry Session requested / planning sent in
Speakers will be requested within next week

4-6 speaker session is planned, and Andrew will start reaching out to potential speakers for their participation

Andrew will lead as chair for Industry Session and Frank and Stephan will support him as Co-Chairs and in case of any situation to have a backup plan.

D) Motivation Mailing before next committee meeting to mailing list of Capacitor list – Frank will take care on this

No confirmation received until today (12.10.2022)

Updates for August 8, 2022:

A) Webinars:

>> possible on Tuesdays / Thursdays

At least a month heads up for promo and arrangements

Webinar Schedule:

October 2022 – November 2022 – January 2023

October 2022:

Presenters for September Frank Puhane / Stephan Menzel

“Capacitors 201 – Deep Dive on Basics of Film, MLCC, E-Caps, Supercaps and their characteristics”

November / January

focus on integration density / high power / SiC & GaN and changes on capacitor requirements

PSMA Capacitor Committee Minutes & Action List

Potential Presenter: Alexander Nebel - Kemet

B) APEC – Industry Session:

Be aware - deadline 2nd of September – proposal for list of presenters and topics

<http://apec-conf.org/conference/sessions/industry/>

- Mix of voice of industry (key users) / university / manufacturer
- Requesting further committees for potential contribution
- WBG – semi committee / IC manufacturers
- Life considerations of caps
- Renewables & energy storage / harvesting

Potential presenters:

davide.giacomini@infineon.com

dennis.stephens@vitesco.com

University of North Carolina - Doug Hopkins

profdchopkins@gmail.com

Aalborg University – Assistant Prof. Ariya Sangwongwanich

ars@energy.aau.dk

University of Southern Denmark – Prof. Dr. Thomas Ebel

ebel@sdu.dk

Potential Session:

DC Bias loss in ceramic caps - Victor Boyadzhyan

+ resonance frequency movement (as live demo?)

victorb@mcico.com

C) Status Update - PSMA Workshop @ APEC :

Special project form for board of directors >> assign costs

Orientate on last year's submission as reference

PSMA Capacitor Committee Minutes & Action List

Updates for June 9, 2022:

a) New Meeting Schedule - Capacitor Committee

>> each month on every second Wednesday 10AM CDT <<

You can check all dates at:

[Meeting Schedule | PSMA](#)

b) Capacitor Survey done – will be posted within Newsletter

https://www.pdma.com/Capacitor_Survey

Please promote on social media and via your own channels as well.

c) Can a member of the capacitor committee (board) attend the APEC prep meeting in Orlando, October 15 / 16, 2022?

>> dates pending and may change

>> Andrew Mikulski – pending / Ed Herbert - fixed

d) Updates on workshop, webinars, industry session

Webinars:

>> possible on Tuesdays / Thursdays

At least a month heads up for promo and arrangements

Webinar Schedule:

PSMA Capacitor Committee Minutes & Action List

September 2022 – November 2022 – January 2023

Presenters latest by next July meeting

Workshop / industry session:

no updates at the moment, survey input will be needed for further directions

Deadlines: August – Industry Session for APEC, Workshop for PSMA

e) review article about last capacitor workshop

>> Frank will share with Lisa till 10th of June

>> will be included in the PSMA June Newsletter

Prep a Webinar Roadmap for 2022 / 2023

Target: 2 – 3 webinars before APEC 2023

1) Caps for Vehicular Applications

EV / OBC /

>> Eric Schneider???

PSMA Capacitor Committee Minutes & Action List

2) Restart Cap Fundamentals

3) Further Ideas:

- Application based Webinar
- Datasheet need to know and specifics
- Component behavior vs. temp / frequency / mechanical stress

>> idea of a non-manufacturer presenter for session 2 or 3

Proposal for timeline of webinars:

July / August 2022 – September / October 2022 – January 2023

Webinars- ASAP

There is a desire and demand to restart the Fundamentals Webinars from the beginning with a fresh approach. Need volunteers, preferably from those that were NOT part of the first series.

PSMA Capacitor Committee Offers Capacitor Fundamentals for Automotive Applications

Webinars / Low power and control circuit applications
/ Power Stage – High Power

Picking Capacitors for your application is always a challenge. Deciding on the proper component given all of the various parameters associated with your design and the numerous capacitor technologies results in choosing a part that best balances the pros and cons of each component and how your application will react to the use of that specific part. Add in the need to consider an automotive application with the temperature extremes, need for EMI suppression, not to mention shock and vibration and you have a true challenge for only the most experienced engineers.

PSMA Capacitor Committee Minutes & Action List

PSMA Capacitor Committee will be offering two Educational Webinars presented by a design leader in the automotive industry explaining a best practices approach to choosing the capacitor that will be best for your application. The Webinars will be broken into different power levels.

Best Practices for Choosing Capacitors for Automotive Low-Power and Control Circuit Applications

Best Practices for Choosing Capacitors for Automotive High-Power Applications (power stage in Chargers, Converters, & Inverters)

Specific capacitor locations will be identified on schematics, and their requirements will be reviewed and all of the various critical parameters will be identified. Various suppliers' products will be analyzed using their datasheets as possible candidates. Will we be able to find the best solution? We will have to see...

Eric Schneider, Independent Engineer with over 35 years of engineering experience.

Pierre to offer a Wurth Fundamentals 101 presentation

Educational Webinar – Sorting out the Data Sheets

Need an FAE or using engineer with experience reviewing different brands of cap datasheets to compare and contrast and to pull out key data – Frank is working on it. Shooting for April / May timeframe

Redo the Capacitor Fundamentals series

Need volunteer(s) to start at the beginning - CDE Scott to send

Roadmap Webinar 2023 Ideas – Reviewing Options

FUTURE ROADMAP Webinar Ideas – sharing Underwriting Opportunities with the Committee

Norm, RELL – Vishay possible high voltage ceramics discussion, disks... trying to get more details

High Frequency Testing for Caps - Raj

NEED IDEAS!!!

New technologies for Broadband application Capacitor support

PSMA Capacitor Committee Minutes & Action List

Tantalums

New in Ultra Caps – Takata, more than ELC – Hybrid package?

Application Driven – how different technologies behave – Filtering, Inverters (DC Link), Power Supplies, compare and contrast technologies and certain parameters for each technology.

Also include Environmental technology discussion (i.e. Heat, Vibe, EMI).

Würth – Power Supply - DC Link / MLCC DC bias

EPCOS – Filtering X/Y Caps, Rob Haywood – Gore’s new dielectrics, Würth - Polymers with higher capabilities

Cap optimization for EMC & EMI, BOM, layout, etc. – Raj

New: Aug, 4th

Raj and Victor to supply an abstract of his presentation

Polymer Caps, MLCCs – at least two segments: low voltage / high voltage

Make suggestion to Connor & Dhaval for Power Tech Roadmap

Possible Eaton Hybrid Supercap – need contact

<https://www.eaton.com/us/en-us/products/electronic-components/faq/what-is-a-hybrid-supercapacitor.html>

Workshop Mission Statement –

The PSMA Capacitor Committee Annual Workshop aligned with APEC has a mission to educate the attendees on capacitor trends, technologies, and innovations. Wherever and whenever applications need energy, Capacitors are at the spotlight, and as energy moves the world it is incumbent for everyone to keep their finger on the pulse of capacitor issues. PSMA’s Capacitor Committee is committed to present the best material available to meet the industry’s needs.

Workshop 2023 – Overview

2023 Theme

??

Frank to supply a first draft of a survey to be sent out by the PSMA office and all manufacturers – due ASAP

Need to create a flier for the sponsorship opportunities – on the registration Page. Need to promote within our organizations.

Need a few more demo stations – How about asking for payment for tables by suppliers.

Need more attendees.

Possibly go Hybrid

PSMA Capacitor Committee Minutes & Action List

Presentations to be reviewed end of January to mid-February

Student Waivers?? – How many

Speakers for round table??

Industry Session 2023 – Andrew Mikulski

Theme:

??

Reliability Improvements, Calculations?

Capacitor Users Problems and Fixes

Use IC manufactures

Frank to pass on contacts to Andrew

GET MORE COMMITTEE PARTICIPANTS
