

PSMA Magnetism Committee

Minutes, June 21, 2012

The purchase order to Dartmouth for the Phase III study has been issued, but has not yet been acknowledged by Dartmouth. Joe will follow-up.

Fred Weber volunteered to champion a survey of PSMA members, to see what they would like the Magnetism Committee to work on.

From Steve Carlsen's power-point slide:

Survey Membership Questions

- Develop list of questions to pose to members on their magnetism needs
 - What projects would be of most help to you?
 - What core shapes and sizes and materials should we analyze/test?
 - What are your most pressing magnetism issues / needs / challenges?
 - What have we been doing as a committee that most meets your needs?
 - What resources in magnetism design and manufacturing do you have?
 - What resources do you lack?
 - How many iterations do you typically have on a design?
 - What is the required design timeline for a magnetic device for you to be successful?

- Other questions?

The next meeting will be Thursday July 19 at 11 AM Central Time.

Respectfully submitted,

Edward Herbert
Co-chairman.
