

PSMA Semiconductor Meeting 2/24/2016

Attendees: Joe Engle, Ed Herbert, Aung Tu, Tim McDonald, Ritu Sodhi

Discussion:

I. APEC 2016 - Industry Session:

- All presentations have been submitted
- Session chairs are confirmed: Carl Blake, John Palmour
- If the presenters have made further revisions to their presentations, they need to send their final presentations in a pdf format, which will be used for the PSMA archives. Ritu to follow up with them offline.
- The following members will be at APEC to attend the Semiconductor Committee meeting in Long Beach on March 22nd: Ranbir, Carl, Joe Engle, Tim McDonald, Dan Kinzer, Aung Tu. Meeting agenda has already been included in the meeting notice that Lisa sent out. Primarily, the team will discuss the activities planned for this coming year.

II. Other topics:

- Aung informed that PSMA has some budget set aside to sponsor a project / study that a committee would recommend. This could be either a university project or a study done by a research institute. Any topic that the committee feels would be useful for the whole industry. Aung suggested to include this as a topic of discussion during the committee meeting on March 22nd.
- Ritu followed up with Conor again regarding the technology roadmap. Conor will get back with some feedback after the committee meeting at APEC.

Actions:

1. Pass on Aung's suggestion to Ranbir so he can include it in the agenda for the committee meeting on March 22nd --> **Ritu**
2. Prepare some discussion material for this year's activities prior to our April meeting and send to the committee members --> **Ranbir, Ritu**
3. Follow up with all 6 presenters to send their final presentations in pdf format, to be included in PSMA archives --> **Ritu**

Next Meeting: Tuesday, March 22nd, 8:00am (Long Beach Convention Center)

P.S. For our next Telecon meeting, the dates proposed are April 6th or 13th - to be confirmed after the March 22nd meeting.
