

## **PSMA Semiconductor Committee Meeting 1/6/2016**

**Attendees:** Joe H., Ed Herbert, Dan Kinzer, Ranbir Singh, Joe Engle, Tim McDonald, Ritu Sodhi

### **Discussion:**

#### **I. APEC 2016 - Industry Session:**

- Conor Quinn has asked for the final list of presentations and the presenter's contact information so they can setup their accounts for online paper uploads. Here is the final list (in the order we want):

- (i) Market research - Dale Ford
- (ii) Silicon Carbide - Ranbir Singh
- (iii) LV GaN - Alex Lidow
- (iv) LV GaN - Dan Kinzer
- (v) Silicon - Tim McDonald
- (vi) New packages - Courtney Furnival

- Joe Engle requested to be the main contact for EPC's paper

- Tim McDonald and Ranbir still to send their draft presentations. Tim will send a detailed abstract by end of this week and the presentation by ~ Jan. 12th.

- Session Chairs --> Carl Blake and John Palmour have both confirmed to be the two co-chairs for this session.

- Final presentations need to be uploaded by all presenters in a pdf format latest by **Jan. 15th.**

- Suggestion for next year's session - to have one less presentation, but use that time slot for a final panel discussion.

#### **II. Other topics:**

- WiPDA - 2016: Ranbir and Joe Engle to be the lead participants from PSMA in the organizing committee for this year's WiPDA. Ranbir got more background information from Carl regarding the PSMA support provided last year. The workshop is from Nov. 7th - 9th at Univ. of Arkansas.

- Webinars for 2016 - Ranbir will find the right person and connect with him to propose webinar presenters on behalf of the Semiconductor Committee

- Roadmap development - Ritu has contacted Conor and offered help from the Semiconductor Committee. Conor will get back with specifics of what it will be needed.

- PSMA Handbook revision - Ritu has received a copy from Joe H. Will review with the team in our next meeting.

All these actions on the other topics will be addressed after the APEC Industry Session is done.
